

Allowing Flash to Play in Google Chrome

1. Click on the lock icon beside the web address:

2. Beside the option for Flash, change from "Ask (default)" to "Allow"

3. If you do not see the option to change flash, please click on "Site settings" and follow the steps above.

4. Close the box and refresh the page. The videos should display on the site after this.

NB: If you close Chrome, you may need to redo the above steps.
